AU110MA

.....

Model No.

Please read these operating instructions before using the unit.

WARNING: SAFETY INSTRUCTIONS, READ BEFORE USING!

Read instructions before use.

Do not spray or keep any aerosol products in or around the shredder.

Avoid touching the document feed opening with hands.

Keep loose clothing or jewelry away from the paper entry slot.

Product is not intended for use by children (product is not a toy).

Avoid getting hair near the paper entry slot.

Do not insert foreign objects into the paper entry slot.

Keep away from moving parts.

Sharp blade edges!
Do not touch!

DO NOT SHREDS:

adhesive labels

unopened mail / envelopes

10+
stapled papers

stapled papers

>1/4" (6mm) heavy duty staples

bound documents

folded sheets

>32 mm
jumbo clips

binder clips

credit cards

CDs / DVDs

laminated sheets / magazines

no staples in center

Note: Do not open lid once shred cycle has started

ENGLISH

WARNING: SAFETY INSTRUCTIONS, READ BEFORE USING!

- **Always turn the shredder off and unplug the power cord from the AC outlet when not in use, before cleaning, moving, or emptying the waste basket.**
- **RISK OF FIRE. Never use any petroleum based or flammable oils or lubricants** in or around the machine as some oils can combust causing serious injury.
- NEVER dispose of flammable chemicals or materials that have come into contact with flammable chemicals (for example, nail polish, acetone and gasoline) in the shredder basket.
- **Never shred metal credit cards, large paper clips, window or insulated envelopes, continuous forms, newsprint, bound pages (for example: notepads, checkbooks, magazines, etc...), transparencies, laminated documents, cardboard, any items with adhesives, hard materials or plastic (except Credit Cards).**
- A socket-outlet should be near the equipment and be easily accessible.
- Never let the wastebasket become full. This will lead to shredded material being pulled back up into the shredder and cause jams.
- Never place the shredder near water or any heat source.
- Do not use the shredder if the power cord is damaged in any way.
- Do not attempt to service this product yourself as doing so may expose you to sharp cutting blades and/or electricity and will void the manufacturer's warranty.
- Never try to clean or clear the shredder blade.
- Never shred beyond the specified sheet capacity. This may result in extensive damage to the machine.

Paper Shredder Operating Instructions

• Warning • Installation • Operation • Maintenance • Troubleshooting

	Auto Feed Tray:	Manual Feed Slot:
Sheet Capacity	110 Sheets of 20 lb. letter size bond paper	8 Sheets of 20 lb. bond paper*
Paper Shred Size	5/32 in. x 9/16 in. pieces (4.0 mm x 14 mm pieces)	5/32 in. x 9/16 in. pieces (4.0 mm x 14 mm pieces)
Paper Tray Size:	Letter size 8.5" x 11"	N/A
Paper Entry Width	8.7 in / 220 mm	8.7 in / 220 mm
Credit Card Capacity	N/A	Only one per pass
Duty Cycle	30 min. on / 45 min. off	10 min. on / 45 min. off
Voltage	120-V~60Hz / 1.5 A	120-V~60Hz / 1.5 A

* Manual Feed:

- Shreds credit cards, small paper clips, staples
- One folded sheet of paper equates to 2 sheets of paper
- Heavier paper, humidity or electrical voltage other than the rated voltage may reduce shredding capacity

INSTALLATION

1. Make sure the basket door is securely closed shut. This shredder features a safety power cut off and will not operate if door is open. Shredders with pull-out wastebaskets will also cut power upon bin removal. The supplied wastebasket activates a safety switch, which allows the shredder to be operable.
2. Attach all 4 caster wheels to the bottom of the wastebasket. (FIGURE 1)
3. A socket-outlet should be near the equipment and be easily accessible.
4. Connect the power cord to any standard 120 volt AC outlet.

⚠ Caution:

Microcut shredders have very sharp exposed blades on the underside. Do not touch. Unplug the shredder before clearing paper jams.

Use care when mounting the shredder on the wastebasket.

FIGURE 1

OPERATION

1 Control Switch

- Using the switch located on the unit, select one of the following settings by sliding the switch either left or right. (FIGURE 2)

| **Auto / On:** This setting allows the shredder to be automatically started by inserting paper into the feed slot. Always feed the paper in as straight as possible. When the paper has passed through, the shredder will automatically stop.

○ **Off:** This setting turns off all features of the shredder. For safety reasons, we recommend that you leave the shredder in the OFF position whenever the shredder is unattended or not in use.

◀◀ **Reverse:** In the unlikely event of a paper jam, the reverse setting can be used to help clear the cutters of paper that did not pass through. Never attempt to clear a jam by using the reverse function until you have emptied the wastebasket.

▶▶ **Forward (Jam Remover):** The forward setting can also be used to help clear the cutters in the event of a paper jam. This allows to manually activate the shredder into cutting mode.

OPERATION

③ LED Status Indicators:

• Door open / Overheat LED Indicator:

Door open:

The Red LED light indicates the shredder basket is not pushed in properly. Shredders with pull-out wastebaskets feature a safety power cut off upon bin removal. Make sure the pull-out wastebasket is properly set back into place, and the green "Power On" indicator is lit.

Overheat:

The red LED light is **blinking**, indicating that the shredder has been running continuously beyond the maximum operating time and has overheated. The unit will automatically shut off. If this happens, switch the shredder off and allow it to cool for 45 minutes or longer before resuming normal operation.

• Bin full / Overload LED Indicator:

Bin Full:

When the "Basket is Full", the RED light will indicate it needs to be emptied. While lit, the shredder will be inoperable until the wastebasket is cleared.

Overload:

The red LED light is **blinking**, indicating that too much paper has been inserted. Use "Reverse" mode to remove the paper and reduce the number of sheets.

• Power On/ Feed Error LED Indicator:

Power On:

The Green LED light indicates the shredder is "On" and ready to operate when paper is inserted.

Feed Error:

The green LED light is **blinking**, indicating that the paper in the paper tray cannot be grabbed by the feeders, open lid to make sure papers are unfolded and positioned properly.

■ Features:

• Auto-Reverse Technology:

When shredder detects over-capacity shredding, the motor will immediately stop and reject paper before actual shredding begins.

OPERATION

■ Auto-Feed Shredding Operation:

• Auto-Feed Shredding Capacity:

Shreds:

- Maximum 110 sheets of letter size (8-1/2" x 11") 20 lb bond paper per load
- Up to 10 sheets stapled paper stacks
- Up to 10 sheet clipped paper stacks

• Power on shredder

- 1 Plug into ground standard US household power outlet (120-V).

- 2 Put main power switch in Auto (-) position.

• Open lid and load paper*

* Paper should be flat and aligned with paper tray.

• Close lid:

The shredder automatically starts when you close the lid.

CONTINUED NEXT PAGE

OPERATION

■ Manual-Feed Shredding Operation:

• Power on shredder

- 1 Plug into ground standard US household power outlet (120-V).

- 2 Put main power switch in Auto (-) position.

- 4 Make sure you do not exceed sheet count per pass (8 sheets max). **Insert paper as straight as possible into feed slot and release.**

- 5 Insert one credit card at a time into the middle of the feed slot.

■ NOTE:

- Always turn off and unplug the shredder when not in use.
- This shredder will shred staples and small paper clips. It is recommended that you remove paper clips whenever possible to extend the lifespan of your shredder.
- Only shred credit cards by feeding them vertically into the middle of the entry, releasing when shredding begins. Never feed more than one credit card at a time.
- Overfeeding the shredder: Shredding beyond the specified sheet capacity can result in extensive damage to the shredder. Overfeeding will strain the machine and quickly wear and break the cutting blades and internal components.
- Overheating with extended use: In the event that the shredder has shredded continuously beyond the maximum running time and overheating, the unit will automatically shut off. If this happens, switch the shredder off for 45 minutes or longer before resuming normal operation.

MAINTENANCE

■ **Warning: Failure to properly maintain your shredder will void the warranty.**

■ **To maintain with shredder oil (shredder oil not included):** Oil the shredder blades every month with basic vegetable oil, cooking oil or shredder oil. Follow oiling procedure below. It helps to keep the shredder blades operating well over many years of use.

Oiling procedure:

1. Open lid.
2. Carefully apply shredder oil across feed slot.
3. Close lid and turn shredder in reverse mode for 3-5 seconds.

■ **To maintain with a shredder sheet (shredder sheet not included):**

- Simply insert shredder sheet into the manual-feed slot the same way you would a piece of paper.
- Turn shredder in reverse mode for 3-5 seconds.

Note: Shredder oil and lubricant sheet are not included.

⚠ Caution:

- Do not spray or keep any aerosol products in or around shredder.
- DO NOT USE CANNED AIR ON SHREDDER.

■ CLEANING:

- ALWAYS UNPLUG THE SHREDDER BEFORE CLEANING!
- Only clean the shredder by carefully wiping the unit with a dry soft cloth or towel.
- Do not clean or immerse shredder in water. Having the unit wet may result in damage or malfunction to the electrical components. If the shredder happens to get wet, be sure to completely dry the unit immediately with a cloth or towel.
- Never use anything flammable to clean the shredder. This may result in serious injury or damage to the product.

TROUBLESHOOTING

If there is a problem with your shredder, check below for the symptoms and steps to resolve. If you continue to have problems, contact customer support at our Service Center.

DO NOT ATTEMPT TO REPAIR BY OPENING THE SHREDDER HEAD. This will completely void the product warranty.

No-power to the shredder

- 1) Check power outlet
- 2) Put main power switch in Auto (-) position.

1) Make sure power cord is plugged into a functioning 120-V standard household power outlet.

2) Check if the blue Power On icon is lit.

3) Check that the lid and waste bin are properly closed.

Shredder does not feed or shred paper

If Overheat light is lit in red, turn shredder off and let it cool down for 45 minutes. Turn shredder on, check Overheat light again, and restart shredding only when light is not lit.

Auto-Feed mode:

If Feed Error icon is lit

If Feed Error LED is lit

Green light indicates paper in paper tray cannot be grabbed into shredding slot. Open lid to make sure papers are unfolded and positioned properly.

Shredder is jammed or runs continuously

- Open lid, remove the remaining stack of paper and carefully pull the jammed paper out of the cutters.
- Remove folded papers, staples and clips.
- Remove any materials with adhesive labels.
- Make sure papers are positioned properly. Staples must be placed in either top left or top right of paper tray.

TROUBLESHOOTING

Manual-Feed mode:

Shredder is jammed and runs in "Reverse" mode only /

Overload icon is lit in red

- 1 Reverse for 5 sec

- 2 Power Off then pull paper side to side

- 3 Reduce sheets

Warning: DO NOT USE ANY SPRAY CANS OR AEROSOLS.

- 1) Sliding the switch to () for 5 sec.
- 2) Turn off shredder then pull paper side to side to remove jammed paper (as much as possible).
- 3) Reduce the number of sheets being fed (count pages to be sure not to exceed the maximum sheet count).

With stubborn situations where the reverse function does not help, follow the steps below:

- 1 Turn off shredder
- 2 Apply shredder oil and wait for 30min.

- 3 Turn on shredder
- 4 Set to "FWD" (Forward)

Or

Use thick paper to push jam through

- 1) Turn off shredder.
- 2) Apply shredder oil to the feed slot (shredder oil not included). Let oil soak in to paper and machine for 30 minutes.
- 3) Set the Power switch to Auto/On.
- 4) Set switch to forward () or use thick paper stock/ greeting card to manually activate the shredder into cutting mode or push the jam through.
- 5) Reduce the number of sheets being fed (count pages to be sure not to exceed the maximum sheet count). Refeed the paper.

Shredder does not feed or shred credit card or small piece of paper

Feed in the center

- Position credit card or small piece of paper over the credit card section of the Feeder (center position).
- Try again.
